Phone : **(+91) 9503 733 178**

Email : **imsangwin@gmail.com**

Address : **Nagpur, MH - INDIA**

A Web & Mobile Developer with **a decade of experience** in designing and developing user interfaces, testing, debugging, and training staff on the latest technologies. Proven ability to optimize web functionalities that enhance data retrieval and improve workflow efficiencies. Experienced in leading teams, architecting applications to deliver scalable and robust solutions, and managing client communications to ensure project alignment and satisfaction.

SKILLS
Angular, ReactJS, NodeJS, AEM, JavaScript, TypeScript, Cordova, PHP, Laravel Framework.

COMPONENT FRAMEWORKS
Bootstrap, Materialize Design, W3CSS and HTML5, CSS3.

UI LIBRARIES
PrimeNG, Kendo UI, Semantic UI, Ngx-bootstrap, Angular-Material 2

CMS & TOOLS worked with
Adobe Experience Manager (AEM), SuiteCRM, Magento, WordPress, GIT, Slack, JIRA

DATABASES
MySQL and MongoDB

LEARNINGS
NestJS, AWS Services, GraphQL, Docker, Microservices.

CORE SKILLS

Leadership Skills

- **Team Leadership:** Managed development teams, mentored junior developers, and ensured code quality through regular reviews and best practices.
- **Project Management:** Led projects from start to finish with Agile, assigning tasks, and tracking progress.
- **Collaboration & Client Communication:** Worked closely with different teams to ensure smooth operations and gathered client requirements to build effective solutions.
- **Client Communications:** Regularly updated stakeholders and clients on project progress, technical decisions, and architectural updates.
- **Strategic Decision-Making:** Assessed new technologies, balanced innovation with managing existing systems, and made decisions that supported long-term business goals.

Technical Skills

- **Tech Stack Migration:** Planned and led the migration of an existing project to a new tech stack from scratch, successfully guiding the team through to production deployment.
- **Multi-Language & Multi-Country Releases:** Worked on applications supporting multiple languages for release in various countries, ensuring smooth international launches.
- **Training & Leadership:** Led teams in code reviews, debugging, and task execution, mentoring interns and junior developers to work independently on high-priority projects.
- **Modular Architecture for Frontend Applications:** Architected modular front-end applications to ensure reusability, flexibility, and maintainability, while adapting to client requirements and improving delivery speed for large-scale projects.
- **Custom UI/UX Architecture:** Developed custom front-end architectures tailored to client-specific needs, enhancing user experiences by integrating tailored UI libraries, modern frameworks (AngularJS, ReactJS), and performance-optimized modules.

EDUCATION

Rajiv Gandhi College Of Engg & Research, Nagpur - **B.E.**

Electronics & Tele-Communication Engg
(Aug 2010 - March 2014)

Built a Top ranked Digital Image Processing project using MATLAB for an automated electrical appliances handling project for final year.

Z.P. Junior College, Pandharkawada - *H.S.C.*

Physics, Math & Chemistry
(June 2009 - April 2010)

EXPERIENCES

Publicis Sapient, Mumbai - *Senior Experience Technology* (Nov 2021 - PRESENT)

- **Learned Adobe Experience Manager (AEM):** Quickly became skilled in AEM and used it to handle important projects.
- **Global Website Deployment:** Successfully launched over 800 websites for international brands, making sure they performed well in different markets.
- **Award Nominations:** Nominated for Unilever's "Partnering for Client Impact" and "Consumer Products - Recognition & Gratitude" awards for excellent work.
- **Led Front-End Team:** Managed a team of front-end developers, overseeing their tasks and ensuring they met deadlines.
- **Handled Production Deployments:** Oversaw weekly front-end updates and fixed issues to keep everything running smoothly.

SOCIAL SKILLS
→ Adaptability to technologies
→ Worked with Agile processes
→ Excellent communication skills

GlobalLogic (Hitachi Group)**,** Nagpur - *Engineering Lead* (Aug 2019 - Nov 2021)

- **Award Recognition:** Received an Eminence Award and was nominated for another while serving as an Associate Consultant.
- **Code and Performance Management:** Managed user stories, code check-ins, reviews, and tracked application performance.
- **API Integration and UI Customization:** Worked on integrating APIs and customizing client UI libraries for future use.
- **Intern Training:** Trained interns to execute tasks independently, enhancing their capability and productivity.

Persistent Systems, Nagpur - *Senior UI Developer* (June 2018 - July 2019)

- **Project Delivery:** Delivered projects ahead of schedule while serving as a Senior UI Developer at Persistent Systems.
- **Team Management and Support:** Managed the UI team, conducted code reviews, and assisted developers with debugging and task execution.
- **Front-End Development:** Designed and developed front-end modules using the latest technologies and custom-built UI libraries.

smartData Enterprises, Nagpur - *Associate Delivery* (April 2017 - May 2018)

- **Application Migration:** Led the team in migrating applications as a key developer at smartData Enterprises.
- **Mobile App Development:** Developed mobile applications for Android and iOS using the IONIC framework.
- **UI and API Development:** Independently worked on UI modules and API integrations.
- **Performance Improvement:** Reduced web application loading time from 55 seconds to 10 seconds and cut build time by 20% through process optimization.

Kratin LLC, Nagpur - *Associate Technologist* (July 2016 - April 2017)

- **Chat Application Development:** Worked on the web component of a chat application integrated with Android and iOS Applications using Web AngularJS for a healthcare project application.
- **Website Maintenance and Redesign:** Maintained and redesigned websites to enhance their appearance and user experience.
- **Content Management:** Updated website content daily and worked diligently under pressure to meet deadlines.

Flying Penguins, Nagpur - *Junior Developer* (May 2015 - June 2016)

- **Full Stack Development:** Gained extensive experience as a Full Stack Developer at a startup, handling various aspects of development.
- **App Design and Development:** Designed and developed over 5 web and mobile apps independently.
- **End-to-End Development:** Worked on front-end, back-end, and database schema design, covering all parts of application development.
- **Mobile Applications:** Developed mobile applications for both iOS and Android platforms.

→ Tracking tools (Jira, Asana)
→ Strong Team Management skills
→ Knowledge of SQL & Database concepts

AWARDS
→ Nominated for Unilever "Partnering for Client Impact" and "Consumer Products - Recognition & Gratitude" awards
→ Eminence Award Nominee, Q1-2021
→ Eminence Award, Q4-2020
→ Bravo Work Award, Q1-2019
→ Client Appreciation Q4-2018
→ Client Bonus Q2-2017
→ Ranked 1st in College Project based on MATLAB and DIP, 2014

LANGUAGES
English, Hindi, Marathi & Spanish

CERTIFICATIONS
→ Udemy - Angular
→ PHP with MySQL
→ HTML5 & CSS3
→ LINKED IN : React
→ HTML5 & CSS3

OS Worked With
Windows, Ubuntu, MacOS, ChromeOS

INTERESTS
Table Tennis, Video Games, Watching Movies

ACHIEVEMENTS
→ Participate in organization initiatives as well as competitions.
→ Secured I Position in RGCER for final year project.
→ Secured III Position in ILLUMINATI (uC coding) held at RGCER, Nagpur.
→ Designed a Line Follower ROBOT for college competition.

PROJECTS

Saas Migration -

- **Front-End Team Leadership:** Led the front-end team for the SaaS migration project.
- **Global Website Migration:** Coordinated with multiple agencies and clients to migrate and redesign over 800 websites worldwide.
- **Production Deployment and Client Communication:** Managed production deployments and communicated with clients for all web applications and brands.
- **Performance Optimization:** Focused on web application performance improvements and Lighthouse (LH) score optimizations.

Github Repos -
- **Starter Projects:** Created starter projects to help beginners learn Angular hands-on.
- **CRUD Application:** Developed a basic CRUD student management application for educational purposes.
- **Repository Updates:** Updated various boilerplate and concept-based repositories.

Peek At Menu - *Owner and Developer*

- PEEK@MENU is aiming to save paper and plastic used in major restaurants and hotels and turn them into a digital world.
- In PEEK@MENU we can create an online menu for your restaurant. Print a QR code that your customers can scan to view the menu and it's free

Servcorp - *Team Lead*

- It is a multinational organization that sells Serviced,Virtual Offices & IT Services to entrepreneurs & large enterprises. It operates in 125+ business centers across 21 countries. Application was migrated from AngularJS to Angular latest version 5.
- Designed processes for cleanup & performance improvement that minimized build time by over 30%.

GIVE Gita App - *Front End Developer*

- GIVE Gita Android mobile app for users is a platform between the users and spirituality. It allows users to be connected to the learnings and spiritual content by means of various features
- Designed and developed user-friendly website,including optimized check-out page that increased user clicks,and customer purchases by 20%
- Technologies Used : Cordova, Angular, JavaScript & Grunt

Cabblo **(Mobile & Web App)**- *Full Stack Developer*
- Cabblo is a marketplace similar to Ola, Uber for intercity travel lovers. The live quotes system provides a smarter way to book your intercity travel, anytime at the best prices.
- Technologies Used: IONIC, Angular, NodeJS, MongoDB, HTML5 and CSS3.
- Both projects were built with Hybrid Mobile App Platform i.e. IONIC. We worked on simplifying user experience with minimum clicks to book cabs and taxis. Google Location APIs were integrated for location mappings.

RISE Living - *Mobile Application Developer (Android & iOS)*

- Rise Buildings is a technology solution, delivering property operations to the owners and operators in commercial & residential real estate
- UI Design, API integration, Back end development and DB managementProject was built with Hybrid Mobile App Platform i.e. IONIC. We worked on Managing building staff and residents in real time.
